Step out of fog into sunshine

HOW many days of your life are lost in the mists of half-health? How many hours which might be bright with promise are dull and dispirited?

Half-hearted days are frequently due to common constitution. It clouds your waking hours, takes the sunshine out of living. Yet this ailment can be overcome so casily and pleasantly by eating a delicious cereal,

Laboratory investigations have proved that Kellogg's ALL-BRAN provides "bulk" to exercise the intestines, and vitamin B to further assist elimination, AllBHAN is also a rich source of blood-building iron.

This "bulk" in ALL-BRAN Is similar to that in leafy vegetables, Within the body, it absorbs moisture, and gently helps to clear the system of wastes. How much better than taking patent medicines!

Two tablespoonfuls daily are usually sufficient, With each meal in chronic cases, If not relieved this way, see your doctor,

Serse ALL-BRAN as a cercal, or use in muffins, hreads, omelets, etc. Get the red-and-green package at your grocer's. Made by Kellogg in London, Onterio.

Keep on the sunny side of life

The welcoming glow of the radical fireplace! It's the symbol of happy homes. It's the rision around which all the thoughts, the ambifures and the premise of happiness of all the ages has been built.

For centuries the hearth has been the symbol of the hence, and for centuries the grains of men has been curacied in im-proving the home tires until to-day we have the fireplace as heartful as it is serviceable.

The fireplace is a spot in every bonne that is worthy of best in equipment—only the best in good enough, for it's a pre-turns soot and one that a cisting eye first glances toward.

A Parade of Ceaseless Work

... a sign of triumphant industry marching ahead; truly a thought to make us ponder, but our constantly fulfilled expectations have helped us grow callous to that upon which our daily bread depends! There is life behind it-the unending struggle for existence. An epic in which the whole range of human effort is loosed every day. Allied with it, we have the record of perseverance, high ideals, and a system of co-ordination which have taken generations of progress to perfect.

We have FIRST-the group who force the earth itself to give up its goods. SECONDLY-those who take this material and make, mould or pack it into the form which civilization demands. THIRDLY—the men who transport this merchandise to the widely-located distributing points . . .

AND FINALLY, the one basic medium which carries the news of all these many necessities into the home of the consumer-THE DAILY NEWSPAPER

So the laugh is—that along with some intelligent thinking now being done in the world about Mass Buying, Employment Insurance—shorter working hours—reciprocal cariffs—Bales Managers are now, in October, 1834, realizing that the Retailer propers in business only because—at—Ir—and when—he satis Merchandles to the public.

The Relative desen't live by buying from Manufacturers—he lives by self-ing to the public. Neither does he put up a flare light before his store—stand holler through a megaphone. He "standard and holler through a megaphone he "standard public of order through a megaphone he "standard public of order to be to the store of the sto Manufacturers only.

The Retailer hands out Merchandise to
the public as WANTED, contributing,
of course, is certain efforts of his own; to
increase the amount of the Bales cheik.
But that comes from his own urge—Me
own self-interest—and his own initiative—not because he loves any particular Manufacturer.

Yes, the laugh is—no, the tragedy is— that in the last few years is has seeined so much select to tash the slaves with selection of set allowed the selection of large that to put wheels under the fill has been so much more comfort-shie in figure out Quotas than to figure out Advertising.

But now the light is dawning that:—
the Retailer is not the Consumer
the Public of the Consumer
and ADVERTISING ALONE WILL
MOVE THE CONBUMER TO MOVE
THE GOODS!

Summing up--

The Manufacturer MUST ADVERTISE,

— AND — the Retailer himself must realize that the "public" constitutes his customers — he cannot carry his store to tham — he must send a message regarding his store—his service—his facilities—his desire to serve the public. THE RETAILER MUST ADVENTIGE.

in both cases—of Manufacturer and Retailer—the Newspaper is the most convenient—timely—effective—acceptable Advertising Medium.

Remembrance Day 1934

Let's couple the future ... , with the past ... , The glories and victories that are over, and the sorrows that are over too. Our sons that made part of the pattern . . . and our hearts that died with them . . . the spirit of gallantry and courage that made a strange Heavin out of an unbelievable Hell . . . and the hope that one day this country of ours schick we love so much will find dignity and greatness and peace again.

The idea is to stimulate increased consumption in Canada of Canadian made Cheese.

Christianity is not exhausted though at times it has seemed so, said the Rev. Richard Roberts, D.D., of Toronto, Toronto moderator of the United burris O'Canada.

"At times it has looked as if Christianity were exhausted but it has always been rejuvenated as it is being rejuvenated to the control of the control of

Him. In this age as in every age there are in this age as in every age there are lures which draw men away from Christ, Dr. Roberts said, including love of wealth, power, pleasures, sensuality and he declared that those who took these roads would live to know only regret, shame

would live to know only regret, seame and remore.

"When we hear His words, by whomever spoken; they are as vivid, valid and convincing as when they first fell upon the ears of the disciples. His words have the quality of timelessness—of eternity."

THE GATE

ere are wide fields that lie beyond My narrow boundaries, And past the fields are mountains tall And farther, plains and seas,

O. giadly, gladly do I pass Through fair and changeful ways To learn the loveliness life holds And all its joy, its praise;

Its fields of peace, its peaks of hope, Its seas of bits that wait; But never could I enter there Until I found the gate.

Life's meanings I could never gain.
Its truths I could not prove
Until the gate swung wide for me,
The gate? The gate is love!

PLANNING for PEOPLE

A Message to Canadians from the Ford Motor Company of Canada, Ltd.

PLANNING that is honestly beneficial to all is bringing P good times back to the Canadian people. It is the only wise kind of planning. Planning that considers the needs of people, their response to fair dealing, their willingness to take a hand in a great work. That starts with the idea that business must share its fruits with those who share its labour . . . and with those who buy the product of

That is Ford of Canada policy. For thirty years we have manufactured Ford automobiles with two simple have manufactured Ford estimables with two simples principles in mind. 1st. To make an increasingly better our and service at a decreasingly lower cost. 2nd. To pay a better-then-living mage to those whose skill and spe-cialised ability have made our planning come true.

There is another part of the plan. To manufacture auto-mobiles, trucks and commercial cars in our factory at East Windsor, Ontario, we need steel, aluminum, forgings castings, glass, cotton, batteries, tires — a host of processed and finished materials.

We buy all we possibly can in the Dominion -75% of our needs. Our demands for supplies have stimu-lated home industries — made others start in Canada. This condition is steadily increasing. In the lost ten yo

vo have spent \$170,000,000 for materials, supplies, tax \$91,500,000 in payrolls. This money works in Canada, keeps thousands of Canadian families, huys more

Canadian goods.

Ford planning and Ford spending extend through the
nine provinces. A huge Ford dealer organization exists that we may keep faith with Canadians and our own ideal of service. Year by year, hundreds more Ford dealerships and service garages have located at key-points in urban and rural districts. They are owned and operated by independent husiness men whose welfare is part of their community's —your community's. They are the Ford Motor Company's envoys to you. Our outposts, stationed in your city or village, on the coast or prairie with you.

Part of their Job li to find out what you want a Ford V-B
unit to do, and then let us know about it. We attend carefully. Talk it over with our engineers. Plan to add this feature, and improve that.

You can put faith in these Ford dealers. As we do. Because they share in the worthy plan of bringing efficient transportation to every one in Canada . . . maintaining it at the smallest cost . . . serving Canada's people with the mesns for greater prosperity, comfort and happiness.

"Poppyrock" is the name used by a writer of a letter in a reent lasse of the Mail and Empire, who gives his address as Balleville. While the word poppyrock, it is doubtful if the writer will satisfy any radger of the letter because of his use of the word because he knowingly, used, a lot of the word because he knowingly, used, a lot of everything that is dearest to the hearts of millions of Canadians. The word Poppyr has a significance to Canadians are of that word other than to express the noblest thought is permissible to one who respects the rights of others. The idea is to stimulate increased consumption in Canada of Canadian made Cheese.

BRILEVILLE BETTER DAYS, inaugu-rated by Belleville merchants, has been widely copied and many other communi-ties in Canada and the United States have staged similar merchandising events.

Belleville Retail Merchants' Association Belleville Retall Merchants' Association started with three-day community sales which were successful and then tried a whole week's shopping spree, developing into the merchandling event which closed Saturday, after seven days of a well-organized community sale in which over one hundred stores took part.

The main idea Relieville Better Days Is to widen the area which supplies shoppers for Belleville stores, to emphasize the fact in an unforgetable way that Belleville is the logical business centre for a very large territory, with he finest of stores, great variety of goods, and reasonable prices.

Bellsville business has grown rapidly of late years, and the number of stores has increased, consequently it is necessary to hold present patrons whether they live near or far, and reach out for new patron-

Belleville Batter Days is a gesture of Good Will, and a token that the merchants of this city are progressive and appreciate the trade of the neighbors of the surround-ing country.

It me the wish of all citizens of Belleville that all vinitors to the city, regular or transient should find a spirit of welcome and be pleased with their reception and treatment while kers.

His feet were guided day on day By purpose clear and bright, He let no trials bar the way, No pleasures cloud the light.

With single thought and aim he went, With steadfast mind and soul; He bartered for no cheap content The vision of his goal.

It's on the Way - - -That Delayed Winter ---Zero Weather with Snow - - -

THE MILD WEATHER has just been a teaser—all indications and all prognostications from scientific students of the weather-to-be state that there will be real winter and plenty of it—

You needn't care, me, lad, if you are, prepared with a snug and snappy Overcoat, and warm underclothing. Be like the careful ship master who makes everything snug and ship-shape before the storm breaks.

DON'T WAIT FOR THE OCCASION Be ready.

· The coming Winter is going to be a "formal" season -more dress clothes than ever are going to be worn. Don't be caught unprepared -order yours now.

There is no type of suit that requires such expert and accurate tailoring as a Dress Suit or Tuxedo-yours should be made-to-measure by experienced tailors—by Tip Top Tailors, who each year tailor the dress clothes of thousands of discriminating Canadians.

● Here, too, the price is but \$23.50—for any fabric, style or size—with absolute satisfaction as to style and fit guaranteed.

DON'T SUFFER PILE QUICK RELIEF MECCA

"... So that Our Visitors will be Sorry to Leave"

"If we are going to invite people to this country, we must be honest with them . . . Courtesy costs nothing and is one of our greatest tourist assets nothing and is one of our greatest tourist assets

. Let us so treat strangers within our gates
that it will be easy for them to come, pleasant for
them to stay, and difficult for them to leave."

Rt. Hon. R. B. BENNETT, Princ Minister of Canada, to the Con-line Association of Towics and Publisher Barratos, November 6, 1934.

Canada's tourist activities represent more than a great industry from which everybody benefits. They provide an opportunity to create what the Prime Minister has described as 'that feeling direighbourlines' which is such a vital factor in building up cordial relations within the family of nations.

For both these reasons, may I urge upon the people of Canada the importance of showing consideration, courtesy and honesty to guests of our country?

Let us all do these little acts of kindness which count for so much when one travels in a strange land.

We have a beautiful country. We must keep it so. We want our visitors to travel highways free from disfigurement, walk the arrests of cities that are orderly and clean, and find at the end of every day's travel an inviting spot to rest. Canadians should turn their attention sew to the important work of preparing for next year's tourist season.

As a nation, we are advertising abroad the attractions of Canada as a holiday land. We must see to it that our guests return home with only the happiest recollections—and the determination to come back again and again.

Mor should we forget, in planning our own vacations, that there are beauties to discover and friendships to be made in our neighbouring provinces. We live in one of the world's most glorious playgrounds—let us learn to know better the rich watery of its travel attractions.
